

assemble.edu™*

SIMPLIFYING SYSTEM APPLICATION DEVELOPMENT IN THE EDUCATION SECTOR

assemble.edu is a modern, lightweight, configurable software suite to develop responsive applications that will seamlessly integrate with institutional systems.

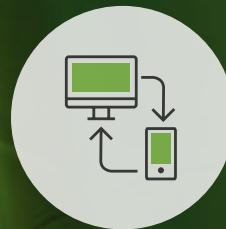

WITH assemble.edu WE CAN:

Create applications using fully configurable, pre-packaged building blocks.

Build microservices with well-defined APIs.

Create responsive applications for any device.

Transcend institutional software solution silos.

"Fast-track application development with OPENCOLLAB's assemble.edu!"

SCALABLE • MODULAR • CONFIGURABLE
